 Native American Arab Other: _____ Unknown Decline response

Marital status of parents: Married Never married Separated Divorced WidowedFamily income: \$50,000 or less \$51,000 or above**CHILD'S SCHOOL PLACEMENT**

Name of school: _____

Please describe your child's school placement:

- Mainstreamed with an aide Mainstreamed without an aide Self-contained special education
 Home schooled Day care Reverse mainstream special education
 Typical preschool Resource classes as needed Not yet in school

Prenatal History

Indicate any of the following complications that occurred during your pregnancy **with this child**.

- Took longer than 6 months to conceive this pregnancy
 Pregnancy achieved through infertility drugs and/or artificial insemination
 Abnormal maternal serum alpha fetal protein (MSAFP) blood test in second trimester
 Alcohol use
 1st trimester 2nd trimester 3rd trimester
 1 drink per day or less greater than 1 drink per day
 Amniocentesis at ____ weeks
 Asthma
 Beta Strep vaginal colonization (typically asymptomatic in mother, but treated during labor)
 Bleeding
 1st trimester 2nd trimester 3rd trimester
 Chemical or toxic exposure
 anesthetic gases/anesthesia
 dental amalgams placed or repaired during pregnancy
 indoor pesticides
 lead
 new carpeting
 new paint
 outdoor pesticides
 other: _____
 Cigarette smoking
 1st trimester 2nd trimester 3rd trimester
 ½ pack per day or less greater than ½ pack per day
 Diabetes
 Gestational diabetes
 High blood pressure
 chronic hypertension
 pregnancy-induced hypertension
 Hypothyroidism (underactive thyroid)
 Infection or illness
 cytomegalovirus (CMV)
 mononucleosis (Epstein-Barr virus)
 bladder infection
 pyelonephritis (kidney infection)
 other: _____
 Placenta previa (low placenta)
 Preterm/premature labor (requiring bed rest or medical care) beginning at ____ weeks
 Protein in urine
 Radiation exposure
 Severe nausea and/or vomiting (hyperemesis)
 Substance use:
 marijuana heroine hallucinogens
 cocaine narcotics amphetamines
 other: _____
 Toxemia/preeclampsia beginning at ____ weeks gestation
 Twin pregnancy Triplet pregnancy Other: _____
 Prescription medication use: _____ 1st trimester 2nd trimester 3rd trimester
 Injury: _____
 Vaccination within 3 months prior to conception or during pregnancy
 (Please specify): Flu shot Other: _____ When given: _____
 Vegetarian diet
 Other: _____
 No complications occurred during pregnancy

Perinatal and Neonatal History

Mother's age at birth: ____ years Father's age at time of birth: ____ years
 Weight gained during pregnancy: ____ pounds

Number of metal (silver/mercury) fillings present during pregnancy: ____
 Number of servings of tuna, swordfish, or other high mercury fish per month: ____

Was labor induced with Pitocin? Was labor induced with prostaglandin gel?
 No Yes Uncertain No Yes Uncertain
 Was labor augmented with Pitocin?
 No Yes Uncertain

This child was born by:
 Normal vaginal delivery
 Forceps vaginal delivery
 Vacuum extraction
 Breech vaginal delivery
 Cesarean delivery due to:
 large baby/failure to progress in labor
 fetal distress (low or worrisome heartbeat)
 breech or other abnormal presentation
 placenta previa (low placenta)
 scheduled repeat cesarean
 other: _____

Length of pregnancy:
 Premature
 Full term
 Past due date (>40 weeks)
 < 1 week late 1-2 weeks late > 2 weeks late

Born at ____ weeks
 Birth weight: ____ pounds ____ ounces
 Apgar scores: ____ (1 minute) ____ (5 minutes) ____ Unknown

Discharged from the hospital when ____ day(s) / ____ week(s) old

Did your child receive the hepatitis B vaccine within the first week of life?
 Yes No Uncertain

How many flu vaccines has your child received and at what age(s)? _____

Check any complications that occurred at birth or during your child's first month of life:
 Abnormal result on newborn screening test: _____
 Anemia
 Birth defect (please describe): _____
 Birth injury (e.g. fractured collarbone); please specify: _____
 Breathing difficulty/required oxygen for more than 20 minutes
 Cord around neck
 Difficulty nursing or drinking from a bottle
 Difficulty regulating temperature
 Frequent or projectile vomiting
 Heart murmur or irregular heart rhythm
 Meconium-stained amniotic fluid with aspiration into lungs without aspiration
 Illness: _____
 Jaundice: required phototherapy (bilirubin lights) did not require phototherapy
 Seizures: _____
 Unable to tolerate milk-based formula
 Yeast infection (thrush, cradle cap, etc.)
 Other: _____

Diagnostic Information

Child's diagnosis:

- Non-applicable (no diagnosis)
- Attention deficit disorder (ADD or ADHD)
- Autism
- Asperger's syndrome
- Pervasive developmental disorder not otherwise specified (PDD, PDD-NOS)
- Atypical autism
- Multiplex developmental disorder
- Landau-Kleffner syndrome
- Rett syndrome
- Other: _____

Additional diagnoses:

- None
- Bipolar disorder (manic depressive disorder)
- Blindness/visual impairment
- Cerebral palsy
- Chromosomal abnormality: _____
- Down syndrome
- Dyslexia
- Fragile X
- Hearing loss
- Hyperlexia (advanced reading skills)
- Learning disability
- Mental retardation
- Mitochondrial disorder
- Obsessive compulsive disorder (OCD)
- Semantic-pragmatic language disorder
- Speech/language delay
- Other: _____

If your child does not have developmental delays or neurological symptoms, please proceed to the next page.

In my opinion, my child's disability is: _____ Mild _____ Moderate _____ Severe

Do you think that your child was born with a neurological impairment?

- Yes, my child was very different from birth
- No, my child seemed to develop and interact in a typical way until a certain age

At what age did you suspect your child had a disability? _____ months

Age at diagnosis: _____ months

Who made the diagnosis? (Check all that apply)

- Developmental pediatrician
- Neurologist
- Pediatrician
- Psychiatrist
- Psychologist
- Other: _____

Please check any therapies your child has received in the past or is currently receiving:

Type of therapy	Currently	In the Past	Start Date
Applied Behavioral Analysis (ABA, Lovaas, etc.)	_____	_____	_____
Applied Verbal Behavior (AVB)	_____	_____	_____
Auditory Training (Berard, Tomatis, etc)	_____	_____	_____
Chiropractic care	_____	_____	_____
Feeding therapy	_____	_____	_____
Speech therapy	_____	_____	_____
Greenspan (floor time)	_____	_____	_____
Special education classes	_____	_____	_____
Regular education classes	_____	_____	_____
Occupational therapy/sensory integration	_____	_____	_____
Physical Therapy	_____	_____	_____
Craniosacral therapy	_____	_____	_____
Therapeutic horseback riding	_____	_____	_____
Music therapy	_____	_____	_____
Relationship Development Intervention	_____	_____	_____
Other: _____	_____	_____	_____

Number of children in family: _____

Child's birth order:

- 1st 3rd 5th or higher
 2nd 4th Adopted

Other children in the family:

Name	Date of birth	Sex(M/F)	Developmental Delays?	Place of Residence
			___ None	
			___ None	
			___ None	
			___ None	

Number of miscarriages prior to pregnancy with affected child:

- None
 One
 Two
 Three or more

Was Rhogam given during pregnancy? (Injection routinely given to Rh negative women)

- Yes
 No
 Uncertain

Developmental and Health History

Circle any medical illnesses that your child has currently or has had in the past:

- Adverse reaction to a vaccination: _____
- Asthma
- Chronic constipation beginning at _____ months of age to age _____.
- Chronic diarrhea beginning at _____ months of age to age _____.
- Encephalitis or meningitis at _____ months
- Eczema
- Febrile seizures (fever-related) at _____ months
- Grand mal seizures (tonic clonic) Onset at age _____ months
- Petit mal seizures (complex partial or simple) Onset at age _____ months
- Strep throat or other Strep infection
- Thrush
- Other medical illness: _____

Is your child allergic to any medication? No Yes: _____

Number of otitis media (inner ear) infections in the:

- | First year of life | Second year of life | Third year of life |
|------------------------------------|------------------------------------|------------------------------------|
| <input type="checkbox"/> 0-3 | <input type="checkbox"/> 0-3 | <input type="checkbox"/> 0-3 |
| <input type="checkbox"/> 4-6 | <input type="checkbox"/> 4-6 | <input type="checkbox"/> 4-6 |
| <input type="checkbox"/> 7 or more | <input type="checkbox"/> 7 or more | <input type="checkbox"/> 7 or more |

At what age did your child achieve the following developmental milestones?

- | | | |
|---|--------------|---|
| Coo | _____ months | |
| Babble ("mamma", "baba", etc) | _____ months | |
| Speak his or her first true word | _____ months | <input type="checkbox"/> My child has never spoken. |
| Speak in two-word phrases | _____ months | <input type="checkbox"/> Not yet using 2-word phrases |

Did your child ever lose language (babbling, words, and/or receptive language)?

- No
- Yes, at:
 - <15 months
 - 15-18 months
 - 19-24 months
 - 25-30 months
 - 31-36 months
 - 37 months or older

Which best describes your child:

- Accelerated language development
- Normal language development
- Normal language development until approximately _____ months, followed by a plateau
- Normal language development until approximately _____ months, followed by a regression
- Always slow to acquire language with no obvious period of regression
- Always slow to acquire language and then regression in language at _____ months of age

Did your child ever lose the ability to use gestures, such as pointing or waving goodbye?

- No
- Yes, at:
 - <15 months
 - 15-18 months
 - 19-24 months
 - 25-30 months
 - 31-36 months
 - 37 months or older

At what age did your child learn to do the following:

Roll over (front to back) _____ months
 Sit without support _____ months
 Crawl on hands and knees _____ months
 Walk _____ months

Did your child ever lose gross motor skills such as walking, running, jumping, or climbing?

- No
 Yes, at: <15 months
 15-18 months
 19-24 months
 25-30 months
 31-36 months
 37 months or older

Did your child ever lose fine motor skills such as drawing or doing finger movements to children's songs?

- No
 Yes, at: <15 months
 15-18 months
 19-24 months
 25-30 months
 31-36 months
 37 months or older

Did your child ever experience a regression in social skills (e.g. eye contact, ability or desire to play with peers, response to parents' attempts at interaction)?

- No
 Yes, at: <15 months
 15-18 months
 19-24 months
 25-30 months
 31-36 months
 37 months or older

Which best describes your child?

- My child is not and has never been toilet trained.
 My child is currently toilet trained, but was not toilet trained until age 3½ or later.
 My child was toilet trained at one time, but regressed and now has frequent stool and/or urine accidents.
 My child was toilet trained by 3½ years of age and never or rarely has accidents.

List any hospitalizations, surgeries, or serious injuries that your child has had:

- None
 Hospitalized for _____ Date: _____
 Surgery: _____ Date: _____
 Injury: _____ Date: _____

Has your child's hearing been tested? No Yes, at _____ on ___/___/___

Has your child's vision been tested? No Yes, at _____ on ___/___/___

Do you have concerns regarding your child's vision or hearing? No Yes: _____

Nutritional Information

My child was breastfed for:

- ____ Months
 ____ Non-applicable (not breastfed)

My child was bottle fed with:

- Non-applicable (exclusively breastfed)
 Milk-based formula (Enfamil, Similac, etc.) from ____ to ____ months
 Soy-based formula (Isomil, Prosobee, etc.) from ____ to ____ months
 Other: _____ from ____ to ____ months

Did your child have colic as a newborn?

- No
 Yes, from ____ to ____ months of age

Dairy products (milk, cheese, yogurt, etc.) were introduced into my child's diet at:

- Never introduced
 0-6 months
 7-12 months
 13 months or older

My child became a picky eater at:

- Non-applicable
 12 months or younger
 13-15 months
 16-18 months
 19-24 months
 25-36 months
 37 months or older

Check any food allergies or sensitivities that are known:

- Citrus fruits
 Corn
 Dairy/casein
 Eggs
 Other: _____
 Gluten/wheat
 Peanuts
 Soy
 Yeast
 No known food allergies

Is your child on a special diet? (check all that apply and indicate date diet was initiated)

- No dietary restrictions
 Casein/dairy free
 Corn free
 Feingold diet (salicylate free)
 Food dye free
 GAPS diet
 Gluten free
 Organic
 Paleo diet
 Soy free
 Specific carbohydrate diet
 Vegetarian
 Yeast free
 Other: _____

My child regularly eats the following (check all that apply):

- Beans
 Beef
 Dairy products
 Eggs
 Fish
 Fresh fruits
 Fresh vegetables
 Gluten-free foods (bread, cereal, etc.)
 Grains containing gluten
 Peanuts or peanut butter
 Potatoes
 Poultry (chicken, turkey, etc.)
 Pork
 Rice or rice products
 Seeds (pumpkin, sunflower, etc.)
 Sweets/desserts
 Tree nuts
 Other: _____

How many **ounces** of the following beverages does your child drink daily?

- ____ Almond milk ____ Cow's milk ____ Juice ____ Water ____ Sports drinks
 ____ Fruit punch ____ Rice milk ____ Soy milk ____ Soda ____ Potato milk

Gastrointestinal Questionnaire

My child typically has _____ stool(s) per day / week of
 normal watery soft or pasty loose hard consistency.

Please check any gastrointestinal symptoms your child has or has had for one month or more.

<u>Symptom</u>	<u>Currently</u>	<u>In the Past</u>
Bloating or gas	_____	_____
Diarrhea (loose or watery stools)	_____	_____
Constipation (hard and/or infrequent stools)	_____	_____
Large volume stools	_____	_____
Abdominal pain	_____	_____
Vomiting, reflux, and/or spitting-up	_____	_____
Blood in the stool	_____	_____
Selective appetite/picky eater	_____	_____
Excessive thirst	_____	_____
Foul smelling stools	_____	_____

Please answer the following questions if your child has any **current symptoms**:

Diarrhea: How often does your child have diarrhea in an average day?
 Less than 3 times a day
 3-4 times a day
 Greater than 4 times a day

If your child currently has diarrhea, what is the consistency?
 Soft
 Loose/mushy
 Watery

Constipation: How many bowel movements does your child typically have per week?
 Greater than 2 per week
 2 per week
 Less than 2 per week

If your child currently has constipation, what is the consistency?
 Formed
 Hard/pebbles
 Hard with pain or large volume stools

Abdominal Pain: How often does your child exhibit signs of abdominal pain?
 Never or rarely
 1-2 times per week
 Greater than two times per week

Vomiting/reflux: How often does your child show evidence of this?
 Never or rarely
 1-2 times per week
 Greater than two times per week

Medication History

Check any medications or vitamins your child has taken within the past month or at any time in the past.

Thyroid Disease													
Vitiligo													
Other:													

CANCER

If anyone in your child's family has had cancer, please specify:

- Brain: _____
 Breast: _____
 Cervical: _____
 Colon/rectum: _____
 Kidney: _____
 Leukemia: _____
 Lung: _____
 Lymphoma: _____
 Oral (mouth, tongue): _____
 Ovarian: _____
 Pancreatic: _____
 Prostate: _____
 Skin: _____
 Stomach: _____
 Uterine: _____
 Other: _____

Which of the following are health priorities in your child's care at this time?

- | | |
|--|--|
| _____ Decrease pain level | _____ Improve balance |
| _____ Enhance cognitive function | _____ Improve concentration |
| _____ Improve attention span | _____ Minimize need for medication |
| _____ Increase energy level / reduce fatigue | _____ Balance/optimize hormone levels |
| _____ Improve sleep pattern | _____ Improve memory |
| _____ Improve nutritional status | _____ Reduce frequency of headaches |
| _____ Increase language | _____ Reduce risk of cardiovascular disease |
| _____ Improve coordination | _____ Reduce risk of diabetes |
| _____ Increase endurance | _____ Minimize tantrums or mood swings |
| _____ Increase range of motion/flexibility | _____ Overcome depression |
| _____ Increase muscle mass | _____ Decrease anxiety level |
| _____ Decrease allergy symptoms | _____ Decrease obsessive-compulsive tendencies |
| _____ Improve diet | _____ Decrease sensory sensitivities |
| _____ Decrease self-stimulatory behaviors | _____ Improve or develop exercise program |
| _____ Optimize health prior to surgery | _____ Increase social interaction |
| _____ Initiate detoxification program | _____ Increase eye contact |
| _____ Decrease self-injurious behaviors | _____ Other: _____ |

How do you expect to determine your satisfaction with your care program?

- Results in 3 months
 Results in 6 months
 Results in 1 year
 Other (please specify) _____

If your child's health history is complicated, please provide a 1-3 page written summary of his or her challenges, assessments, interventions, and therapeutic response to date. Please include any response to past treatments, whether positive or negative and indicate which interventions you have found to be most helpful.

Developmental and Behavioral Survey

Cindy Schneider, MD

For each set of descriptions, circle the number which best describes your child **DURING THE PAST MONTH**.

	1	2	3	4	5			
	Never	Rarely	Occasionally	Frequently	Always			
Communication:								
1.	Able to communicate needs verbally			1	2	3	4	5
2.	Able to communicate needs nonverbally (through gestures, sign language, etc.)			1	2	3	4	5
3.	Responds when name is called (turns head, looks at parent)			1	2	3	4	5
4.	Asks questions			1	2	3	4	5
5.	Answers questions			1	2	3	4	5
6.	Repeats words or phrases (immediate or delayed echolalia)			1	2	3	4	5
7.	Able to understand simple directions ("come here", "close the door", etc.)			1	2	3	4	5
8.	Makes spontaneous comments			1	2	3	4	5
Social Interaction:								
9.	Shows concern when seeing someone sad or hurt (demonstrates empathy)			1	2	3	4	5
10.	Looks at parent to share expressions of pleasure during enjoyable activity			1	2	3	4	5
11.	Maintains age-appropriate eye contact			1	2	3	4	5
12.	Smiles in response to another person (social smile)			1	2	3	4	5
13.	Responds (verbally or nonverbally) to another child's request to play			1	2	3	4	5
15.	Initiates a request to play with peers (verbally or nonverbally)			1	2	3	4	5
16.	References parent to obtain feedback on behavior			1	2	3	4	5
17.	Enjoys new people and places			1	2	3	4	5
18.	Affectionate and loving toward parents			1	2	3	4	5
19.	Enjoys being held or hugged by parents			1	2	3	4	5
Behavior:								
20.	Laughs or giggles without obvious reason			1	2	3	4	5
21.	Exhibits repetitive or self-stimulatory behavior			1	2	3	4	5
22.	Flaps arms or hands			1	2	3	4	5
23.	Unusual toy play (e.g. lining up, stacking, or spinning toys)			1	2	3	4	5
24.	Disturbed by changes in routine			1	2	3	4	5
25.	Eats inedible objects (e.g. dirt, sand, wood, paper, etc.)			1	2	3	4	5
26.	Destructive			1	2	3	4	5
28.	Aggressive (bites, hits, or otherwise harms others)			1	2	3	4	5
29.	Bites his/her hand, wrist, or arm			1	2	3	4	5
30.	Bangs or hits his/her head			1	2	3	4	5
31.	Hyperactive			1	2	3	4	5
32.	Has difficulty completing activities (short attention span)			1	2	3	4	5
33.	Has difficulty transitioning from one place or activity to another			1	2	3	4	5

1	2	3	4	5
Never	Rarely	Occasionally	Frequently	Always

Sensory Issues:

34.	Bothered by certain lighting conditions (fluorescent lights, sunlight, camera flash)	1	2	3	4	5
35.	Examines objects or fingers closely in front of eyes	1	2	3	4	5
36.	Enjoys vestibular activities such as swinging and spinning	1	2	3	4	5
37.	Places hands over ears and/or unusually fearful of certain noises	1	2	3	4	5
38.	Grinds teeth	1	2	3	4	5
39.	Has a high pain threshold	1	2	3	4	5
40.	Avoids certain textures (e.g., finger paints, sticky substances)	1	2	3	4	5
41.	Disturbed by certain items of clothing or textures of fabric	1	2	3	4	5
42.	Refuses foods based on texture (too chunky, too smooth, etc.)	1	2	3	4	5

Daily Living Skills:

43.	Able to put on shirt without assistance	1	2	3	4	5
44.	Able to put on pants without assistance	1	2	3	4	5
45.	Combs hair	1	2	3	4	5
46.	Aware of approaching danger such as cars, swings, balls, etc.	1	2	3	4	5
47.	Washes hands with age-appropriate skill	1	2	3	4	5
48.	Brushes teeth with age-appropriate skill	1	2	3	4	5
49.	Uses a spoon or fork to eat	1	2	3	4	5
50.	Urinate in the toilet	1	2	3	4	5
51.	Has bowel movements in the toilet	1	2	3	4	5

Sleep:

52.	Has difficulty falling asleep	1	2	3	4	5
53.	Awakens in the middle of the night	1	2	3	4	5
54.	Wets diaper or bed at night	1	2	3	4	5
55.	Does not sleep well unless in parents' bed	1	2	3	4	5

Motor Skills:

56.	Walks with a normal gait	1	2	3	4	5
57.	Runs with a normal gait	1	2	3	4	5
58.	Able to jump up and down	1	2	3	4	5
59.	Able to climb up stairs one step at a time	1	2	3	4	5
60.	Climbs on chair to reach a desired object	1	2	3	4	5
61.	Able to catch a large ball	1	2	3	4	5
62.	Able to kick a ball	1	2	3	4	5
63.	Copies a straight line	1	2	3	4	5
64.	Able to write name	1	2	3	4	5
65.	Rides a tricycle or bicycle with training wheels	1	2	3	4	5
66.	Has a good sense of balance	1	2	3	4	5
